

Novuqare®

SealMate P40/P20

High-quality validatable rotary sealers.
With touchscreen and optional printer.

Novuqare is making waves in the sealer market with the new SealMate range of products which are:

- **High quality**
- **Extremely reliable**
- **User friendly**
- **Easy to service**

The SealMate is the result of Novuqare's long experience in designing and building premier rotary sealers.

Sealers from Novuqare have been engineered and tested to meet the demanding conditions of hospital sterilisation departments. Ten years of experience and continuous technology development guarantee very reliable and easy-to-service products.

With the arrival of Novuqare's SealMate heat sealers, a new benchmark in quality sealers has been set.
